

ONATADE ABDULMAJEED

Location: Lagos, Nigeria

Website: <https://spider-portfolio.netlify.app>

Contact No: [+2349161578428](tel:+2349161578428)

Github: <https://github.com/Spider1201>

Software Engineer (Full-stack)

Email: onatadeabdulmajeed@gmail.com

LinkedIn: <www.linkedin.com/in/onatade-abdulmajeed>

Professional Summary

Full-Stack Developer with strong front-end experience and growing back-end skills. Proficient in building responsive user interfaces with hands-on experience integrating back-end services and third-party API's. Familiar with back-end concepts, databases, and version control using Git and GitHub. Actively learning and building real-world projects while focusing on clean code, usability, and continuous improvement.

Education

National Institute of Information Technology (NIIT)

OTA, Ogun State

Professional Diploma in Full Stack Development (Software Engineering)

2024 - 2026

Courses: Analysis of Algorithms, Web Programming, Software Engineering, Networking, Databases

Skills Summary

- Languages: HTML, CSS, JavaScript, Typescript, Python, Java, SQL, Bash
- Framework and Libraries: NextJS, NodeJS, NestJS, ReactJS, React Native, Tailwind CSS, Sass Css
- Others: MongoDB, React Query, Git, AWS, ChartJS, Revit Architecture

Experience

9JA News Web App – Frontend Developer

Software Developer(Front End) Feb 2025

- Built the front-end using **React and SASS**.
- Developed **dynamic components** for displaying news articles and categories.
- Maintained code with **Git and GitHub** for version control.

Location Finder App – Front-end Developer

Software Developer(Front End) Oct 2025 - Nov 2025

- Developed the user interface using **React Native components**
- Implemented **search functionality and location display** with APIs
- Handled application logic and user interactions to ensure responsive navigation and updates.
- Deployed the app for testing on mobile devices
- Used **Git and GitHub** for version control and project management

Portfolio Website – Fullstack Developer

Software Developer(Front End) Feb 2025

- Developed using **React, Vite, and Tailwind CSS**
- Managed app state using **React state and props**
- Optimized for **performance, responsiveness, and accessibility**
- Used **Git and GitHub** for version control and project management

Certifications

- Certificate in Full Stack Development (Java Programming and NoSQL MongoDB) - NIIT
- Honors Diploma in Full Stack Development (Web designer and Developer) - NIIT University
- Python Essentials - NIIT University
- Algorithms and Data Structures - NIIT University

Volunteer Experience

Hospital Management System Team Project

Full-Stack Developer Aug 2024 - Dec 2024

- Collaborated with a team to develop a **desktop hospital management system** using **Java Spring (back-end)** and **JavaFX (front-end)**.
- Implemented **MongoDB** for secure storage of patient records, appointments, and staff data.
- Built **interactive user interfaces** to streamline hospital operations and improve usability.
- Coordinated tasks within the team to ensure **timely delivery of project milestones**.

Football Stats Team Project

Back-end & Database Developer Aug 2024 - Dec 2024

- Developed a system to **collect and store football statistics** for the Premier League using **MongoDB**.
- Implemented back-end logic to **track players, teams, matches, and performance metrics**.
- Built **data retrieval and management features** to allow efficient querying and analysis of football stats.
- Collaborated with team members to ensure **data accuracy and scalability**.
